## **KDONOL- FIXER NF**

### **APEO-NPEO FREE POLYCATIONIC COMPOUND**

**KDONOL FIXER NF:-** Highly Concentrated Cationic Dye Fixing Agent For Achieving Maximum Wash Fastness Levels In Cotton and Blended Fabrics DYED /PRINTED with Direct and Reactive Dyes.

**KDONOL- FIXER NF:-** Is a Cationic Fixing Agent mainly through the cation and dye molecules in the anion group formation of ionic bonding ,thereby sealing WATER-SOLUBLE groups, to improve the wet treatment fastness.

This kind of FIXING AGENT can be divided into surfactant fixing agent and non-surface active fixing agent according to its surface activity.

#### GENERAL PROPERTIES

1. APPEARANCE	:	Colorless/Tinted Liquid
2. IONICITY	:	Cationic
3. % SOLIDS	:	60%
4. %H <sub>2</sub> O K/F	:	40%
5. PH	:	3-5
6. MISICIBILITY	:	Miscible in Water
7. USUAGE	:	0.5-0.8% (O.W.F)

**KDONOL-FIXER NF :-** It improves RUBBING, SOAPING and PERSPIRATION FASTNESS . Out Standing Alkali Resistance that makes Mercerization available after FIXING. It is stable to acid, alkali, electrolytes and hard water.
