KDONOL SIL-1235

KDONOL SIL 1235 is a premium Shear Stable Silicone Softener imparts very soft handle while virtually maintaining the original substrate whiteness & hydrophilicity. It maintains natural absorbency of cellulosic substrates & their blends with synthetics .The hydrophilic properties imparted show practically no change with aging or extreme drying conditions. KDONOL SIL 1235 Excellent stability to high shear(hence suitable for jet & soft flow machines) & broad pH range(up to 12) as well as very good compatibility & stability in baths containing common textiles chemicals such as optical brighteners & residual electrolytes.

Characteristics

Appearance Clear Solution/pale white

Chemical Nature non –lonic PH 5.0 - 6.5

Compatibility with cationic and non ionic

Dilution In lukewarm water as well as in normal water also USAGE: 0.500gm-0.800gm. (According to fabric/yarn)

NOTE :----
